

The Microsoft Fabric Journey

Let RSM guide your Data Platform Journey with Microsoft Fabric

Ideation

Work with RSM to discover the potential of Microsoft Fabric and identify new opportunities within your organization utilizing the unified end-to-end SaaS data and analytics platform, Fabric.

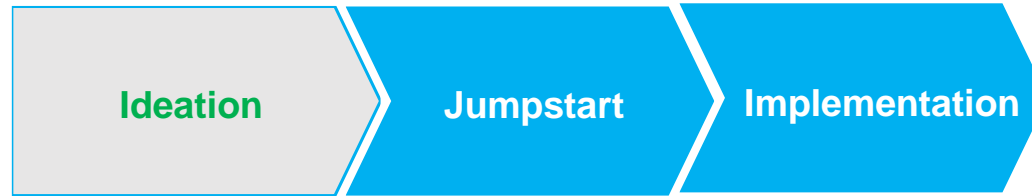

Jumpstart

Work with RSM Data professionals to put the ideation phase to work through various options for Proof of Concept as well as an option for a well-defined Fabric Roadmap.

Implementation

Expand upon everything we've learned and begin your journey to a fuller implementation that includes Microsoft Fabric.

Microsoft Fabric Ideation

Experience the power of Microsoft Fabric with RSM's 3-hour brainstorming session, showcasing the cutting-edge capabilities of the Fabric framework.

Activities

Intro to Fabric (1 hour)

Onelake Foundation
SaaS offerings and applications

Follow-up discussion (2 hours)

Discuss your organization's vision for a future state data platform

Review RSM's methodology for a full rollout of data platform and identify Fabric use cases at your organization.

Deliverables

- ✓ Overview of Microsoft Fabric with Subject Matter Experts from within your organizations sector (1 hour)
- ✓ Microsoft Fabric envisioning session (2 hours)
- ✓ High-level roadmap detailing RSM's Data Platform Rollout methodology
- ✓ Recommended next-steps and action plan

Microsoft Fabric Jumpstart

An introduction to your organization's next steps for Microsoft Fabric.

Activities

Option 1: Work with stakeholders to build a Microsoft Fabric roadmap and deployment plan. Highlighting; timelines, risks, and opportunities.

Option 2: Work with RSM solution architects to implement a Proof-of-Concept tailored to your organization's use case. Examples include:

- ❖ *Connect a cloud repository to OneLake to enable future Fabric POCs*
- ❖ *PBI Capacity upgrade to Fabric Capacity to unlock the power of Fabric*

Deliverables

- ✓ Stakeholder meetings to ensure the delivered Microsoft Fabric roadmap is tailored to the needs and priorities of your organization
- ✓ Comprehensive Microsoft Fabric deployment strategy for your organization
- ✓ Fabric Solution to get your organization started on the Fabric Journey

Jumpstart

\$5,000 - \$15,000

Note: Projects may be eligible for Microsoft funding (Azure Innovate, AMMP, or ECIF) depending on project criteria and deliverables

Microsoft Fabric Implementation

Successfully launch Microsoft Fabric and Modernize your Data Platform

Activities

Leverage the Microsoft Fabric Jumpstart program to successfully develop an optimal Data Platform Solution Architecture for your organization

Work alongside a suite of RSM developers to develop, test, and deploy your Fabric solution centered around your Fabric Roadmap

Iterate through your future state deployment roadmap, compounding upon previous development efforts, until your organization has Microsoft Fabric established end-to-end.

Deliverables

- ✓ Project Management and status updates tying together development and roadmap
- ✓ Personalized rollout of Fabric Architecture as defined by your organizations Fabric Roadmap
- ✓ Comprehensive Unit Test and UAT ensuring that the solution is accurate and complete
- ✓ Assistance with training and user adoption of your organization's new Microsoft Fabric data platform.
